

INSTRUCTIONS FOR THE PREPARATION OF POSTERS

Each poster is intended to convey the information contained in the annual program report, while minimizing the amount of text in favor of explicit tables, figures, and diagrams with appropriate annotations.

The space available for each poster is 93 inches wide by 47 inches tall, on a table-top display board. The posters are to be fastened to the board using Velcro® dots, which will be supplied at the conference.

The posters are to be mounted in place and ready for viewing at 6:00 p.m. on Wednesday, June 2nd. Poster authors are expected to be available to explain their posters from 6-7:30 p.m. on June 2nd. The posters are to remain in place through 10:30 a.m. on Friday, June 4th.
