

INSTRUCTIONS FOR THE PREPARATION OF POSTERS

Each poster is intended to convey the information contained in the annual program report, while minimizing the amount of text in favor of explicit tables, figures, and diagrams with appropriate annotations.

This year, we are using free-standing poster boards which have dimensions of 80 x 74 inches (41sq. ft. surface area). These boards will be mounted with the 80 inch dimension horizontal. The posters are to be fastened to the boards using Velcro® dots and/or push pins, which will be supplied at the conference.

The posters are to be mounted in place and ready for viewing at 6:00 p.m. on Monday, May 9th, and poster authors are expected to be available to explain their posters from 6-7:30 p.m. on May 9th. The posters are to remain in place through 10:30 a.m. on Wednesday, May 11th.
