A Brief History of 20Cr-25Ni Steel as Used in the UK	162	Spring/Summer-05	9
Program Awards for the Development of Multi-Megawatt Fuel Cell Systems; DOE Unveils Plans for Gas Turbines to Operate on Coal-Derived Synfagas and Hydrogen	162	Spring/Summer-05	11
Weldability of Fe-Cr-Al alloys	161	Winter-03	1
Supercritical steam issues	161	Winter-03	4
Supercritical steam comes to CFBs	161	Winter-03	6
Corrosion of materials in biomass-fired power plants	161	Winter-03	8
Recent developments: new coal-fired supercritical steam power plant in Iowa; H-system turbine award; coal mine methane fuels cells; sensor research projects selected; DOE to test methods for reducing mercury emissions	161	Winter-03	12
Premature failure of T-91 superheater tubes in an HRSG	160	Fall-03	1
Oxide exfoliation from alloy 347HFG in a high-temperature steam boiler	160	Fall-03	2
Fate of trace contaminants from biomass fuels in gasification systems	160	Fall-03	5
Feasibility studies for on-line electrochemical corrosion monitoring in fireside	160	Fall-03	8
Separation of CO <sub>2</sub> from coal-based power units	160	Fall-03	10
Long-term test results for protective coatings on the furnace walls of a supercritical boiler	159	Aug-02	1
Improved refractory materials for coal gasifiers	159	Aug-02	4
Simulation of gasified biomass	159	Aug-02	6
Materials and components developments in Siemens Westinghouse's ATS program	159	Aug-02	9
Recent developments: new low-NO <sub>x</sub> coal combustor; new order for GE H-system CCGT; fuel cell developments	159	Aug-02	12
Canadian approach to clean coal technologies	159	Aug-02	13
ODS alloy heat exchangers for solid-fuel thermal systems	158	Jun-02	1
P92 and P122 steels for superheater outlet collectors	158	Jun-02	5
Experience with internal airfoil coatings in industrial gas turbines	158	Jun-02	7
Approaches for reducing scrap rates for advanced turbine blading	158	Jun-02	10
Operating experience and issues with HRSGs	157	Apr-02	1
Operating experience from coal-based IGCC power plants	157	Apr-02	3
Inhibition of vanadium-induced hot corrosion in gas turbines	157	Apr-02	7
Underground coal gasification in Australia	157	Apr-02	10
New projects for capturing and storing carbon gases	157	Apr-02	12
An efficient separation system for hydrogen recovery	157	Apr-02	12
Update on Baglan Bay CCGT power plant	157	Apr-02	13
The European COST program	157	Apr-02	13
Ceramic-based thermocouples for gas turbines	156	Feb-02	1
On-line boiler corrosion characterization	156	Feb-02	3
Performance of an iron aluminide filter in a reducing environment	156	Feb-02	6
DOE funds projects to increase gas turbine life span	156	Feb-02	11
The High-Efficiency Engine and Turbine program	156	Feb-02	11
